

Program & Degree
Music Education and Pedagogy

Degree

Doctor of Philosophy

Program overview

The Doctor of Philosophy in Music consists of two majors – Music Education and Musicology.

The Music Education major aims to provide the graduates with the visions in the field of music education amidst the current increasingly changing environment in this field. In addition, the major will prepare the students with creativity, thorough understanding in the knowledge of music education, and the advanced ability to apply all the knowledges in practice. In addition, the Music Education major is expected to create practitioners who contribute to the development of music education society and have skills in music education institution management.

The Musicology major aims to produce the high quality academics knowledgeable both in the fields of eastern and western music, as well as music researcher and educator who can integrate knowledges in various music-related areas to establish new perception and knowledge to the society.

Students in the Ph.D Program are expected to achieve advanced academic competence, excellent critical and analytical skills, and public presentation skills both in the form of written and spoken presentation in national and international level.

Program Structure
