## Upcoming Events

Metropolis Symphony is an epic work based on the original Superman comic books. Daugherty uses jazz, rock, funk, and a host of other sounds to bring the stories to life in a way that only a full symphony orchestra can. The music will be brought to life with animated graphics, digitally projected on all sides of the hall, creating a visually and aurally immersive experience. Also featured on this program is euphonium virtuoso Boonyarit Kittaweepitak. The program opens with a bang with Adam's breathless Short Ride on a Fast Machine. Our Resident Conductor, Pamornpan Komolpamorn, leads the orchestra in this fun and friendly program.

Thailand Phil is proud to partner with the faculty and students of the Communication Design Program at Mahidol University International College in the creation of the animated graphics.
